Dear Alec,

With the termination of Epic Games Inc.'s developer account, we cannot migrate your implementation of Sign In with Apple to another developer account. Instead, I would recommend that your team build a custom flow to migrate users off Sign In with Apple by collecting email addresses or asking users to select a different login method.

Best,

Mark Grimm | ☐ Partnership Manager, Games | REDACTED@apple.com | C: +1 (315) 254-7853
